

Disan Alam

Full Stack Developer | Cybersecurity Student | React • Node.js • Express • MySQL

✉ disanofficial@gmail.com 🌐 disanalam.me in linkedin.com/in/disanalam 🐙 github.com/disanalam2 📍 Ranchi, Jharkhand, India

PROFESSIONAL SUMMARY

Full-Stack Developer and Cybersecurity student with hands-on experience building web applications using React.js, Node.js, Express.js, and MySQL. Interested in secure web development, REST APIs, and scalable software systems. Passionate about writing clean, maintainable code and continuously improving development skills while focusing on responsive UI and safe data practices.

EDUCATION

B.Tech in Computer Science and Engineering (Cyber Security)

2025 – 2029 (Expected)

Haldia Institute of Technology

Haldia, West Bengal

Coursework: Programming in C, Computer Fundamentals, Engineering Mathematics

TECHNICAL SKILLS

Languages

JavaScript (ES6+) Java SQL C C++

Frontend

React.js HTML5 / CSS3 Tailwind CSS Sass (SCSS)

Backend & DB

Node.js Express.js RESTful APIs MySQL

Security

OWASP Top 10 JWT Authentication Secure Coding Linux Basics

Tools & Cloud

Git / GitHub Firebase AWS Vite

EXPERIENCE

Web Developer

Apr 2026 – Present

GDG on Campus, Haldia Institute of Technology

Haldia, India

- Developed frontend features for community web applications using React.js and CSS modules.
- Collaborated with student developers using a standard Git workflow, participating in code reviews and debugging sessions.
- Integrated third-party APIs and built reusable UI components for internal tools.

PROJECTS

Personal Portfolio Website — Full Stack

🔗 Live

GitHub(Frontend)

GitHub(Backend)

React.js · Vite · Sass · Node.js · Express.js · MySQL · Firebase

- Developed a responsive full-stack portfolio application using React.js and Vite to showcase projects and skills.
- Built a Node.js and Express backend integrated with a MySQL database, providing a RESTful API for dynamic data fetching.
- Implemented an Admin Dashboard with complete CRUD functionality, enabling secure content updates directly from the UI.
- Integrated secure JWT authentication and role-based access control to restrict admin routes, and deployed the frontend via Firebase Hosting.

Demo Services Website

🔗 Live

GitHub

React 19 · Vite · CSS · ESLint

- Built a modern, fully responsive service showcase interface using React 19 and Vite with a component-driven architecture.
- Engineered a highly optimized frontend utilizing CSS Flexbox and Grid, focusing on mobile-first responsive design.
- Optimized application bundle size using Vite and enforced strict code quality standards by configuring ESLint.

Demo Factory Website

🔗 Live

GitHub

HTML5 · CSS3 · JavaScript

- Designed a customized industrial product showcase from scratch using pure HTML, CSS, and vanilla JavaScript.
- Developed interactive UI elements including hover states and responsive product cards without relying on external CSS frameworks.

Firayalal Public School — Web Portal

🔗 Live

GitHub

HTML5 · CSS3 · JavaScript

- Developed a comprehensive school exhibition portal with clean, section-based navigation for Admissions, Academics, and Media.
- Integrated Google Maps into a functional contact inquiry page, ensuring seamless cross-device compatibility.
- Organized the codebase systematically with modular CSS and JavaScript files to maintain code readability.

CERTIFICATIONS & COURSES

Introduction to HTML, CSS & JavaScript

✓ View Credential

Coursera — IBM (May 2026)

Skills: HTML5 · CSS3 · JavaScript · Web Accessibility · UI/UX

- Developed foundational expertise in front-end development, focusing on structuring web pages, styling with CSS3, and adding dynamic interactivity via JavaScript.

Introduction to Software Engineering

✓ View Credential

Coursera — IBM (Apr 2026)

Skills: SDLC · Agile Methodologies · Software Architecture · Version Control (Git)

- Gained comprehensive knowledge of the Software Development Life Cycle (SDLC), Agile methodologies, and modern software architecture principles.

ACTIVITIES & INTERESTS

- Open-Source Development:** Actively maintaining 9+ public GitHub repositories encompassing full-stack web applications, REST APIs, and responsive frontends.
- Cybersecurity Enthusiast:** Engaged in continuous research on ethical hacking, OWASP Top 10 vulnerabilities, and implementing secure coding practices.
- Tech Community Involvement:** Contributing to GDG on Campus by participating in technical workshops, sharing full-stack insights, and fostering peer collaboration.
- Core Interests:** Highly passionate about software architecture, cloud deployments (AWS, Firebase), and building highly scalable, resilient systems.
